

# 2024 PLANETARY AGENDA

## *Digital Version (French only)*

---

In this document, you will find a description of the agenda, ideas on how to utilize it to your advantage, then the ethical rules concerning its distribution and financing.

### **Description of the Agenda**

This agenda is constituted of three files in PDF format, placed in a compressed folder, which can be sent in an email, or downloaded from a website. The first file is the agenda itself. The second, the agenda's introduction and the ephemerides. The third file is the present document.

The agenda has been divided into two parts to make it less bulky for phone or tablet users, but also to be able to open the agenda at the same time as the introduction in two separate windows so as to have access to the tables of symbols or other explanations if needed, without losing the page.

### **Usage**

The files are in PDF format; therefore, you can use a software to read PDFs that enables you to write on the pages, add comments or bookmarks, or you can search by key word. Some users prefer not to write anything in it. They use it only to follow the planetary events, the strength of the planets, or to consult the astro-psychological climate of the moment.

The introduction explains the various ways of using the agenda and gives basic explanations on the astrological symbols and their interpretations.

### **Limits of the Agenda and use as a promotional tool**

A user having little knowledge in astrology will probably have difficulties using most of the information given in the agenda. Also, there are no indications on how to relate the planetary events with your own natal chart. These shortcomings may constitute a motivation to use this agenda as a promotional tool to offer astrology consultations or courses.

### **Copyright and rules**

#### **Metaphysical law of copyright**

An author devotes time and energy in writing a work. In all cases, all work is energetic, in proportion to the duration and the intensity of the attention that was required. The more the work is energetic, the more it has value, the more the user will receive its benefits in his reality. A universal law states that we receive as much as we give, and even more. Therefore, in order to receive, one must give. If we appreciate the services rendered by astrology, we

must, if not venerate, at least respect the relentless work provided with so much devotion by some researchers in astrology, such as the designers of the software Mastro-Expert!<sup>1</sup>

Here are some simple rules that may be used as guidelines.

### **Rule #1: respect of the minimal cost**

“Each user has the responsibility to send the minimal amount of \$15 to the author.”

### **Rule #2: free distribution, eventually enriched with other services**

“Each user can distribute the agenda to their own clientele and keep 20% for their promotional work, i.e. \$3 per agenda.”

### **Rule #3: integral distribution**

“The agenda should always be distributed in its totality, as a compressed folder, which includes three files.”

If these rules are respected by a majority of users, everyone’s work, from the designers to the users, will collaborate to valorize astrology and its use.

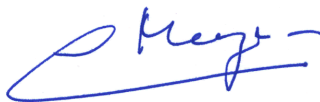

## **Payment terms**

It will be possible to send your payments to the organizations that promote astrology who will have negotiated an agreement with the author; detailed information will then be transmitted through the website of the organization.

To send a payment directly to the author, the simplest method is to send an eTransfer to the email: [carol.meyer@uniserve.com](mailto:carol.meyer@uniserve.com). In this case, the secret answer will be “agenda”. It is also possible to mail a check at the address below or contact the author.

## **The planetary agenda in the paper version**

The paper version of the planetary agenda is not available in English this year. We plan to have it ready in paper and digital format next year (2025).
